

OBERGON CALLS KING PLEA A JOKE

Mexico's President Calls U.S. Senator "Newest Ace of Interventionists."

By the Associated Press.
MEXICO CITY, April 22.—The statements made in the United States Senate by Senator King, advocating a blockade of Mexico and the seizure of Mexican ports as a guarantee for the payment of American claims against Mexico were described today as a joke and the senator was characterized as "the newest ace of the interventionists" by President Obregon in an interview with the newspaper correspondents.

The president said he did not believe the declarations of Senator King would affect public opinion, either in the United States or Mexico, and that they were unimportant so far as recognition of Mexico was concerned.

Recognition Status Same.
The recognition status, the president added, was unchanged. "Nor can it be changed at present," he added.

Obergon did not know of any specific points to be dealt with next week when the five leading American oil men will hold conferences with Mexican officials, but he said he understood the matter of pooling of interests in development work will be discussed. The "big five" will not, however, be given the exclusive right of such pooling, the president added, as the petitions of other companies along the same lines will be accorded equal consideration.

RAIL LABOR BOARD LOSES TO PENNSY

By the Associated Press.
CHICAGO, April 22.—Federal Judge George T. Page today upheld the Pennsylvania railroad in its suit to test the power of the United States Railroad Labor Board by refusing to dismiss the temporary injunction recently granted by Judge Landis restraining the board from censoring the road for violation of the board's decrees.

Judge Page ordered a conference of attorneys for both sides and the case probably will come up again later. The board ordered the road to hold new elections among its shopcraft employees some time ago and the road refused to do so. The board then prepared to issue a decree censoring the carrier, and the Pennsylvania obtained the injunction to test the board's powers.

The shop crafts had charged that the employees' representatives who conferred with the road over proposed wage reduction were not selected by the road but by the Pennsylvania board. The labor board has never claimed power to enforce its decrees, the enforcement being left to the transportation act to the moral responsibility placed on carriers and employees through the decisions of an impartial body. Its only power was to censure publicly anybody violating its decrees, and it recently did this in connection with a small eastern road. The Pennsylvania maintained, however, that the board could not enforce its decrees. Today's decision is not final.

YOU ARE INVITED

Wouldn't you rather have 12 eggs than 6

An egg that is never laid is lost. Laid eggs, not lost eggs, mean poultry profit.

To make good hens produce eggs is simple. Feed them the ARCADY WAY—treat them right and they do the rest.

Fed on grain alone, hens make

many egg yolks and few egg whites, but hens can't lay a yolk or a white separately. Both must come together if it's a whole egg or none.

Without proper feed to make as many egg whites as egg yolks, the yolks are lost, and lost yolks mean lost eggs.

Why lose eggs? You don't have to.

"THE WIND BLEW INN" SURVIVING POLICE RAIDS, MEETS NEMESIS IN FIRE

By the Associated Press.
CHICAGO, April 22.—The Wind Blew Inn, Chicago's chief claim to Bohemianism and the center of the local "Greenwich village," which has come into prominence lately through police raids, poisonings and attempted suicides, was destroyed by fire today.

The dilapidated, unpainted, two-story wooden structure was situated on the edge of a fashionable residence section.

The police several times tried to close it, once raiding it and arresting a score of university students together with numerous long-haired men and bobbed-hair women.

The police said the three candles lighting the two floors did not give enough light to make the place respectable and that the customers were in too close proximity.

Habitues of the inn denied that refreshments stronger than chocolate eclairs were served and insisted that the only excitement was over a debate on the question: "Resolved that woman needs more than man needs woman."

The recognition status, the president added, was unchanged. "Nor can it be changed at present," he added.

Obergon did not know of any specific points to be dealt with next week when the five leading American oil men will hold conferences with Mexican officials, but he said he understood the matter of pooling of interests in development work will be discussed. Conference Likely Monday.
Minister of Finance de la Huerta will arrive here tomorrow morning at 8 o'clock, and the oil men, traveling on a special train, are due to reach the capital two hours later.

The president said he believed the conferences would start Monday, but that there was no serious conflict between the companies and the Mexican government, as all the taxes for the past three years have been properly paid and without protest.

HEIRS OF ESTATE MISSING.
Executors Cannot Find Recipients in Russia or Africa.
NEW YORK, April 22.—All but \$14,000 of the \$65,000 estate of Simon James Gordon may revert to the state if efforts to find four heirs, who are scattered over Russia and in South Africa, fail. Only one of the heirs has been located so far, and she has written that because of chaotic conditions in Russia she cannot help much in the search.

These facts were brought to light today when the public administrator, Thomas F. Smith, filed an accounting of the estate of Mr. Gordon, who died in July, 1919. He left about \$248,019 mostly in stocks and bonds, but with a deduction, together with bills against the estate, has brought the estate down to \$65,000.

Mr. Gordon's widow is believed to be living in Petrograd.
